Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

GUARANTEED 99½% PERFECT

This book is as correct as our over one-half century of making directories can make it.

One hundred per cent perfection is our aim and ideal, but we are not fooling the public or ourselves that this has been attained.

Ever since Adam succumbed to Eve, perfection is at least one half of one per cent from "arrived".

To disprove our claim it would be only necessary for one to find at least *fifty* errors or omissions for every *ten thousand* names, over twenty years of age, in the alphabetical section, who have been residents of this community for at least one year prior to publication.

The first one who can accomplish this, and forward the same to our address, will receive the next publication gratis.

DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE
MEDIA DEPARTMENTAL OF THE ASSOCIATED
ADVERTISING CLUBS OF THE WORLD

The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:

1. To consider, first, the interests of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all Departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. *To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.*

Those who buy without looking at the classified list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. MONTCLAIR

Most beautiful suburb of New York, pre-eminently desirable as a place for home of refinement, whether of the wealthy or of citizens of average means—pronounced by a competent and distinguished critic as “foremost representative of the highest type of Christian civilization in the entire world.”

MONTCLAIR is widely known as a prosperous town of some thirty-eight thousand happy people, enjoying advantages vouchsafed to few communities of a semi-rural character, and withal close to and in reality constituting part of the world's largest and most rapidly expanding metropolis.

Distant a dozen miles from the seaboard and elevated from three hundred to five hundred feet above tidewater, it rejoices in a salubrious climate, free from fog and malarial influences, and commands extensive views over a territory comprising the homes of five per cent. of the population of the United States.

In addition to conditions notably beautiful and healthful the citizens of MONTCLAIR have privileges almost innumerable, outstanding among which are the following: Schools unsurpassed anywhere.

Fine and hospitable churches of all denominations.

Seven strong banks with combined assets of \$37,000,000.

Five building and loan associations having outstanding loans to home owners of over \$3,000,000.

Numerous parks conveniently located, one of which affords facilities for the enjoyment of skating and of miniature yachting.

Stores and shops of the best character and an enterprising chamber of commerce. Several country clubs, each having an eighteen hole golf course.

MONTCLAIR Athletic Club, having 1,600 members and recognized as one of the very finest sport clubs in the country; 18 tennis courts, also several handball and squash courts, swimming pool, baseball diamond, skating, restaurant, etc.

A large variety of prosperous clubs and organizations ministering to every conceivable need of a progressive community.

Transportation facilities unusually excellent. The Lackawanna has a terminal station in the lower part of MONTCLAIR and the Erie has five stations, serving all parts of the town. Trains to the daily number of about fifty-five each way, to and from New York, provide a reliable service of great convenience, particularly to commuters. By express trains the run to the Hudson terminal at Cortlandt Street, New York, is made in about thirty-five minutes.

Good government, good roads, good police and fire protection are among MONTCLAIR'S conceded blessings.

Whether for investment or a home no suburb of New York has advantages approximating those offered by MONTCLAIR. And pre-eminently is this true of the newer north end, known as

“WATCHUNG” and “UPPER MONTCLAIR”

Excellent served by the Erie Railroad and having their own community life, including schools, churches, stores, banks, parks, etc., these popular sections of the town offer the best opportunities for the homeseeker. Attractive houses (many of them new) both modern and of the older type, are to be had in great variety at reasonable prices.

As life-long residents and for twenty-seven years actively engaged in real estate development and brokerage in MONTCLAIR, we are thoroughly acquainted with local conditions and realty values.

Our office is near the “Watchung Avenue” (Erie) station at the center of the town's greatest real estate activity. With very complete listings of all worth-while offerings of properties for sale or rent and with an adequate and capable sales force, we can and do give efficient and courteous service to all interested in real estate who favor us with their patronage. It is our sincere purpose to maintain a recognized reputation for honesty and dependability in all dealings. MAY WE SERVE YOU?

The difference between

Reference and

Creative media

is their direction

The seller's efforts to stimulate demand is well carried by outgoing, extensive, display media, but—

he should remember that initiative rests with the buyer, and when the hunt for the goods begins, creative media which may have built up the demand, are at a disadvantage.

It is the difference between coming and going.

The creative advertising is going after the prospect, to make him want to buy, but when you have him coming, reference media should be used to connect the demand with the local supply. Every effort should be made to direct the demand to the goods advertised, at the point where they may be seen.

It is here that reference media, directories, find their logical place in the cycle of the sale.
